

# ASTRA

**SRI KRISHNA COLLEGE OF ENGINEERING AND TECHNOLOGY**

---

## WINNING PLAN

# LINE CHART

# KEY POINTS

“Ad astra per aspera”

---

- ✓ For every project we do, teamwork and intelligence wins championship. Having a team with hard-working and co-operating mates is our main uniqueness. We as team ASTRA are working hard to compete with SUVC participants .
- ✓ Firstly, for every competition we should completely be aware of the set of rules provided ,we team ASTRA have gone through the every nook and corner of the rulebook and understood the specifications and also have cleared our doubts with our advisors .
- ✓ Instead replicating design according to the rulebook , innovation of specifications make the vehicle more professional and unique.
- ✓ Our team have implemented more innovation techniques which would be easily understood by all the end users.
- ✓ Accepting the opinion of each and every member in the team is very essential for a project to be successful, we team ASTRA is very keen on this that everyone's ideas and opinions which are relevant are taken into account.
- ✓ So that everyone consider this as their own project and be more responsible. Punctuality is very important and essential in every work we do, we as a team complete the work assigned to us prior to the scheduled time.

# USP / MONOPOLY

---

 **ASTRA** -Not just a capable vehicle, The all in  
one package for every SUV lover

- ✓ Everyone is strong in different aspects , Finding the right people for the right job is fundamental for team success.
- ✓ A group of people working for a common cause can achieve a lot more in a single day than an individual can in a long time. Ego, insecurity, naivety, and temperament are the most prominent hurdles at being a good team player.
- ✓ Success is a long journey rather than a swift destination. At first, most teams look highly motivated. With time, energy drains out. Good leaders must inject a fresh dose of morale boosters now and then, keeping the team focused on the bigger picture.
- ✓ The agreement and disagreement of everyone matter technically.
- ✓ Everyone in the team should have the thirst to learn every drop from the ocean of knowledge, and be aware of how our project is made and works as well .

# WORK PERCENTAGE

---
